Nirix Inc. operates under the name Nirix Technology, and may be referred to in this text as Nirix or Nirix Technology. We specialize in delivering state-of-the-art advanced hosted services to highly regulated and publicly traded organizations.

With hosted services from Nirix, you no longer have to worry about managing hardware or software; you eliminate capital investments through the convenient pay-as-you-go subscription model, and experience the benefits of IT solutions that are deployed quickly, on demand and can scale with your business needs.

Advanced hosted services offer your business, regardless of size, maximum flexibility and access to a suite of business class hosted applications and services, all at a low, predictable monthly rate.

Based out of Edmonton, Alberta, Canada, we currently offer four advanced hosting services, targeted towards highly regulated and publicly traded organizations. Each service is structured in the same way, where the subscriber consumes the service in much the same way they consume their electricity or use a cell phone. Never overpaying or under-utilizing.

### Hosted Services

**Hosted Backup:** A secured online, offsite data backup and storage service, enabling subscribers to backup and/or restore their data in real-time; from anywhere, at any time.

**Hosted Desktop:** The most advanced hosted service developed by Nirix. Hosted Desktop

eliminates the hassles of staying current with complex IT products, services and procedures. Part of a complete disaster recovery plan, users can access their virtual PC anywhere, anytime.

**Hosted Exchange:** Centralized email, calendars, contacts and tasks. You experience all the benefits of a business class Exchange email solution, without the admin overhead.

**Hosted Helpdesk:** Offers expert level resource to help manage, maintain and support growing organizations. Quickly turns a cost-centre into a competitive advantage.

*"Wherever you see a successful business, someone once made a courageous decision."  
- Peter F. Drucker*

Founded in 2001, Nirix has been going through a period of rapid growth. In order to sustain and further enhance this growth, we have

formed a Board of Advisors, consisting of seasoned executives and professionals with backgrounds in telecom, venture capital and finance.

### Recognition and Awards

Alberta Venture Fast 50 2007 and 2009

VenturePrize 2007 Finalist
